

Description

Top-Dressed OTO

- The top-selling hatchery larval finfish diet, "Top-Dressed" with *Haematococcus* (a microalgal astaxanthin source), natural feed stimulants, and natural immune-stimulants
- Made with raw *True Marine*™ materials that provide easily-digested proteins and high quality lipids for optimal nutrition
- Excellent profile of HUFAs, phospholipids, vitamins and minerals
- Precisely controlled particle sizes
- No mess—excellent particle integrity in water
- Contains high content of krill to enhance color
- Large range of granule and pellet sizes

Packaging

Packed with oxygen and moisture absorbers, in oxygen and moisture impermeable, light-proof packaging for optimal shelf life.

1 oz, 3 oz, 1 lb, 1 kg, and 2 kg aluminum pack
